

Ref.: A02327 LEAK DETECTOR 400ML PUCK

Detects air and gas leaks.

- ✓ **Practical**
- ✓ **Quick visual check**
- ✓ **With multi-position valve**

APPLICATION

Ideal for maintenance departments, plumbers, garages, security services, laboratories and all other industries. Ideal for pneumatics, inner tubes, joints, pipes, etc. For quick visual detection of leaks: bubbles indicate air or gas leaks. For checking watertightness or airtightness of circuits and connections. Efficient and very safe Multi-position valve for use in every direction. Nozzle with removable extension tube for easy use and access to hard-to-reach mechanisms.

RECOMMENDED FOR

- All leaks: butane, propane, natural gas, nitrogen, carbonic gas, freon, rare gases, etc.
- Detects oxygen leaks: pipes in the medical and hospital sectors, diving tanks; and hydrogen leaks in plants.
- Plumbing
- Garages

INSTRUCTIONS FOR USE

Place the extension tube in the hole in the nozzle. Shake before use. Spray briefly but firmly from approximately 30cm. Check visually if bubbles form to indicate a leak.

PACKAGING

Packaging unit: 500ml aerosol can with nozzle and removable extension tube

Pack size: Box of 12 units

Tin can Diameter: 65mm/Height: 195mm

Nominal volume: 650ml /Net volume 500ml

Pallet size: 1080 units – 90 boxes
